more ways to move

The Metro Tunnel is a big step forward for all Victorians.

Enjoy more ways to move with five new underground stations, more than 1,000 extra train services every week and direct access to Melbourne's major hospitals, universities and St Kilda Road.

The Cranbourne, Pakenham and Sunbury lines move out of the City Loop to run through the Metro Tunnel. Regional passengers will enjoy more choice too, with most able to connect to Metro Tunnel services with a single change of train.

The Metro Tunnel makes it easier to get where you need to go, whether you're travelling to work, university or exploring Melbourne and Victoria.

Network changes

Network changes start **1 February** with new timetables for most metropolitan and regional trains, V/Line coaches and many connecting local buses.
